

**GARAGE DOOR ENCLOSURES**

## GARAGES. THEY'RE NOT JUST FOR CARS ANYMORE.

Do you want to turn the garage into a gym, hobby room or play room? Or do you simply want to enjoy bug-free ventilation? Affordable Eze-Breeze® Garage Door Screens make a great addition to your garage, so you can work and play in comfort.

### SIDE SLIDER GARAGE DOOR SCREEN – SS30

We start with sturdy, high-quality aluminum frames, then custom build it to fit your garage. These panels glide easily on large, neoprene wheels, then latch securely into place. The kick plate provides extra strength and prevents damage to panels, and the low profile threshold won't damage tires and won't be damaged by cars.

- 2-track or 4-track frame option
- Sill with threshold on both sides
- Vent quantities range from 2 – 10 to fill any size opening

- Vent configurations: stacked, staggered, pyramid, or condo
- Vents rolled with 1814 charcoal screen mesh
- Optional vinyl rolled panels keep out wind and rain but let in light
- 8", 12" or 16" kick plate
- Swivel latches shipped with every order
- Optional pull handles
- Color matched hardware
- Inside mount frame

### **WANT EVEN MORE SPACE!**

Eze-Breeze Garage Door Screens are a great addition to your lanai, too! Use them to separate the pool area from the porch, block the glare from the afternoon sun, and protect your patio furniture from 99% of damaging UV rays.

### **THE OPPORTUNITIES ARE ENDLESS!**

## A PRODUCT WITH A MEMORY.

The tough 10-mil vinyl glazing is as transparent as glass, and, if accidentally pushed or distorted, it will return to its original shape within minutes. A product with a memory.

To help you protect your investment, each Eze-Breeze® sliding panel unit is custom-made to exacting standards, comes with an iron-clad lifetime warranty on frames and 10-year warranty on vinyl, screen and moving parts. Like the screen enclosure itself, vinyl and screen panels are not hurricane proof. Homeowners should remove the panels if winds exceed 65 mph.

### WITH EZE-BREEZE GARAGE DOOR SCREENS THE OPTIONS ARE ENDLESS....
